Summary

Enthusiastic beginner designer with growing skills in UX/UI and digital tools like Figma and Photoshop. Passionate about creative problem-solving, visual storytelling, and eager to learn while contributing fresh ideas.

Education

Alva's Institute of Engineering and Technology

Bachelor of Engineering

Pre University

Base PU College

High School

S Cadambi Vidya Kendra

Technical Skills

JavaScript, Python, SQL, C++, HTML5, CSS, SQL

Soft Skills

Collaboration, Problem-solving, Communication, Time management

Additional Skills

Research, Writing

Languages

English, Hindi, Kannada

Certifications

- Introduction To Graphic Design
- Introduction to Artificial Intelligence (AI)
- Computer Networks and Network Security

Projects

Interactive Holographic Display

Designed and developed an innovative 3D holographic display system to enhance interactive user experiences. Implemented projection and optical illusion techniques to simulate realistic visuals without the need for special glasses. Integrated gesture-

- Successfully created a functional 3D holographic display prototype enhancing immersive interaction.
-
- Implemented gesture-based controls for hands-free navigation and real-time engagement.
-
- Applied optical illusion techniques to project visuals without VR/AR headsets.
-
- Demonstrated applications in education, exhibitions, and product showcases.
-
- Strengthened skills in design thinking, prototyping, and user-centered innovation.

VFX Background Removal

Executed high-quality background removal for video projects using advanced VFX techniques. Focused on delivering seamless visual integration by applying chroma keying, masking, and compositing methods. Ensured natural blending of subjects with new en

- Utilized chroma keying, rotoscoping, and masking to achieve precise background removal.
-
- Enhanced realism by refining edges, shadows, and color correction.
-
- Replaced static and dynamic backgrounds to match project requirements.
-
- Improved efficiency through optimized rendering and workflow management.
-
- Strengthened expertise in Adobe After Effects, Premiere Pro, and Photoshop.
